## GENERAL ITALIAN RETREAT TOWARDS **ELBASAN**

## Kami Mokra Mountains Cleared

LONDON, Dec. 6 (Reuter)-The Italian retreat towards Elbasan is now on a general scale all along the northern front, says Reuter's Special correspondent on the Yugaslav-Albanian frontier.

Snow and fog which caused considerable reduction in aerial activity yesterday also assisted the Italians in their retirement.

Latest reports from the battlefront state that following a series of courageous and daring bayonet charges the Greeks have completely cleared the Kami Mokra mountains. Fighting at this point has been on a heavy scale during the past 48 hours.

On the north-west flank, Mussolini's men only succeeded in withdrawing after sustaining heavy usualties and losing much war material. Many prisoners are also reported to have been taken by the

# SOUTH ATLANTIC ACTION FOUGHT AT LONG RANGE

## Heavily Armed German Raider Chased

LONDON, Dec. 6 (Reuter)-An action in the South Atlantic be tween a British armed merchant cruiser and a disguised German raider is described in an Admiralty communique which says that H M. S. CARNARVON CASTLE (Capt. H. N. M. Hardy, D. S. O., R. N.) was in action yesterday against a fast and heavily armed German raider disguised as a merchant ship.

Full details are not yet to hand. The Carnarvon Castle received but from available reports, it is slight damage and there were clear that the action was fought some casualties. It is not yet at long range as the enemy raider, known what damage was inflicted which was a ship of considerable on the enemy raider and she was speed, did not accept closer last reported to be steaming north

A BIG PRESS DEBATE REGARDING FINANCIAL HELP TO BRITAIN has been opened in Washington. One paper earnestly hopes that if Sir Frederick Phillips "has come on a credits mission his efforts will be crowned with immediate and substantial success." The general opinion seems to be that necessary financial help will be forthcoming before the urgent need for it arrives.

THE TTALIAN RETREAT TOWARDS ELBASAN IS NOW ON A GENERAL scale all along the northern front. It is almost certain that the Greeks have captured Santa Quaranta although official confirmation is lacking. This success is part of a general advance. which has taken place along the entire Albanian front.

#### NAZI SUBMARINE MENACE: NO CAUSE FOR UNDUE PESSIMISM, SAYS M.P.

"It is true that the concentrated Nazi attack on our communications and production is serious, but we have no occasion to be unduly depressed over our losses," said Mr. Vernon Bartlett, the well-known journalist and Member of Parliament, when he spoke in London yesterday.

Mr. Bartlett prefaced this remark with a reference to photographs he had seen of merchant seamen arriving in America after having been picked up by rescue ships as a result of their vessels having been torpedoed.

"Any British sailor who towards a puppet state, for it is in arrives in America in these this way that they can keep up the circumstances will arouse sympathy," said Mr. Bartlett, strong." As a matter of fact, question of dealing with German submarines.

FORMIDABLE MENACE

"The mercantile marine," wen on Mr. Bartlett, "has always been maintained at a high level, and for the first time we are beginning draw on our reserves. The operation that is going on between German aircraft and their marines makes this menace formidable and it has to be remembered that the Germans operate from bases all along coast of France and that we can not operate from bases along the coast of Eire.

"We must not also forget fact that Germany has many more bombers than we have got and car reach our centres of production which are in some cases closer them than our factories. It therefore, easier for the German to interfere with our production than it is for us to interfere with

"Indeed, if Herr Hitler had concentrated from the very beginning on our centres of pro-"duction, instead of trying to break the spirit of London, we would have been in a serious position.

Mr. Bartlett declared that there emed to be a wave of pessimism sweeping over the United States and even over the British Commonwealth. It was the same, said, during Dunkirk and he Unique to the public was the minded his listeners that Dunkirk

Though Great Britain has also important interests in the Far East, Australia was geographically more closely bound up with the Pacific area than Britain. Thus, it had been decided by the Australian Government that Australia should have separate diplomatic representation in two countries of the Pacific area, the Unites States of America and Japan.

At the Imperial Conference in 1926, it was agreed that the selfgoverning Dominions would appoint their own diplomatic representatives in any foreign country where, it was considered the interests of the Dominion warranted such separate representation. Before the appointment of Mr. R. G. Casey as Minister to Washington and his own appointment as Minister to Tokyo it was not considered that the interests of Australia rerepresentation.

#### SHARED CONFIDENCE

Mr. Steed touched on the financial agreement reached between Great Britain and Turkey which he said was further proof tha other countries shared Britain's bethe report. "If I put myself in Hitler's place might reason as follows:-The final contcome of the Battle of Greece depends on the Battle of Britain. When I. Adolf Hitler, has beaten Britain: I can beat Greece in my own time. So I shall show the world how to destroy a superfor enemy. I shall destroy his civil population and when weather conditions permit I shall let England know what invasion means If I wait too long there may be trouble from the French, the Dutch and the Norwegians. So I will amash Britain. Let them look: out for themselves."

"It is good reasoning," said lar. Steed, "but it all comes a little

#### Mr. Roosevelt Might Change Combat Zone Rule

WASHINGTON, Dec. 6 (Renter)-The possibility that President Boosevelt might change the combat zone rule to permit United States ships to enter Fire ports is suggested unofficially as a sten towards the solution of Britain's shipping problem.

Despite tire concern feit at recent British shipping losses and desire to extend further measures of assistance, it is indicated the Administration is relactant at present to take steps such as convoying Beltish merchantmen across the Atlantic or allowing United States vessely to take appplies to Britain but there is the prospect of their later becoming important Administration or Congressional

## HUGE COMET WILL BE VISIBLE ON JAN. 15

AT THE CENTRAL OBSERVATORY IN MANUA and at the Philippine Baptist Mission in Capis the search is going on for a kind of heavenly body that has stirred the imagination of man through the ages-specifically, for the newly discovered Cunningham Comet, reports the Manila Bulletin.

The comet is said to be located between the constellations Swan and Lyre in the northwestern part of the sky around 9 p.m. However. since this part of the heavens very low on the horizon and therefore visible only a short Father Guzman was unable locate the comet. Moving south will be in the northwestern part of the sky in February.

THRILLING SIGHT Meanwhile, E. F. Rounds, director of the department of rural life of the Philippine Baptist Mission and his wife had also been searching for the comet. Source of their information was their son's school paper, Junior Scholastic, Headed Comet Coming Our Way: No Cause For Alarm, the article follows:

"Astronomers promise us unusually thrilling sight this win-"A newly discovered big comet

will become visible about Nov. I "The comet will reach its greatest brilliance about Jan. 15. By then it will be in the southwestern sky, near the constellation

Sagittarius "It will be the brightest come since the appearance of Halley's comet in 1910. Its head will shine more brightly than any star eq planet. Its tail will sweep across a large section of sky.

turna) (Mozart) — The Adolf Busch

There has been little success at be known as Cunningham's Comet. "Mr. Cunningham discovered the

ed larger telescopes on the same field, and these showed unmistakably that the image was of a comet. It already showed a tail. "The comet is now about 200.-

000,000 miles away. It is travelling towards us at a rate of 13 miles a second. As it comes closer it will pick up speed, until it is travelling about 30 miles a second. But don't worry, its nearest approach will be about 59,000,000 miles from earth. 400,000 MILE TAIL "

"The tail of the comet is about 400,000 miles long, and still growing. It may be 100,000,000 miles in length by the time the comet

comes closest to earth "A comet's tall is composed of luminous thin gases. In 1910 the earth passed through the tail of Halley's comet. The gases were so thin that they could not even be seen, as the earth passed through them. Most people never knew that they had gone through a comet's

The Rounds family reported observing an unusually bright planet in the southeastern sky early in the morning. This would be the planet Venus, not a comet, according to Father Guzman dmitting lack of expert know nedge about heavenly bodies Rounds requested in a letter the Bulletin that the proper authorities be asked for verification. 19-INCH TELESCOPE

Father Guzman said the come is said to be visible through field glasses but added he has doubts that success would attend the eftorts of anyone searching for "s little fellow with a small tail." He is using a 19-inch telescope.

A comet is a heavenly body generally irregular in form and often with a long nebular train or tail It is, even now, regarded in extra etientific circles with superstitious dread, its appearance being taken to presage calamity. King's Envoy is decidedly dangerous but seems to have lost some of his recent form which has prevented me from tipping him as the actual winner. However, one must remember that this dun always runs well in Macao and has been doing remarkably well of late in the Portuguese Colony. Dow-Jones should pay well if he

The big \$1 Sweep will be drawn on this mile race and I forcast a win, which is long over-due for Shangai 4. Victory Life has to carry an additional 12 lbs penalty for his last win, hence my preference for the old champion. Meadow Eve should place and the outsider to follow is Coureur Bleu.

KAU TUNG HANDICAP (THIRD SECTION) It is about time Peralen Cat

## INSIDE STORIES NAZI FACTORIES

This is the inside story of the three biggest. German aircraft factories-Junkers in Dessau, Heinkel in Mecklenburg, and Messersehmitt in Augsburg, writes Kurt Doberer in Forward, (Glasgow).

"It shows how the Nazis tried to increase the output of aircraft by the mere lengthening of working hours. This method led to a flasco. After the breakdown of this all too simple method of multiplying the aircraft output, the Nazis worked hard to overcome the difficulties by organizing a clockwork-like shift system.

the Nazis had increased the work- cels with cigarettes, like the army. ing hours in the Junkers factory and, in fact, collected for the to twelve and thirteen hours a army. The Naxis pull all the test, openly, but the production group of specialized workers into a began to fall behind in such a fool's paradise. degree that. the Nazi authorities feared that they would lose the stock, which is the seat of the bigwhole control of the aeroplane

#### PASSIVE RESISTANCE

The passive resistance of the workers is clearly shown by the fact that, in spite of the lengthening of the working day by two or three hours, the total output of the factory fell by twenty per cent. in relation to the production on the past normal working day.

In this dangerous situation the whole scheme was radically changed. The workers of the factory were divided into four shifts, each working six hours a day instead of the thirteen hours as be-

As there were not sufficient men for the four shifts of workers in this twenty-four hour working system, the scheme was again complicated in the sense that most of the workers had to make

up overtime. To get control over the whole private life of the workers, 9,000 men of the Junkers works are lodged in barracks like soldiers. Here their living is like that of soldiers.

Heretennie

After their work in the Junkers factory, in their leisure hours they are fed with propaganda. They are told that the Junkers works are safe from any air attack since the dangerous serodromes Czecho-Slovakia are in the hands of Germany.

The workers are told that in the case of a victory for the Allies, the Junkers works would be destroyed like the German armament: factories in 1919. Then the propagenda-speaker describes to the men the life of the unemployed. There would be no hope of any work in their lifetime.

#### GIFTS OF CIGARETTES

In spite of the fact that Rogest factory of the Heinkel works, is practically in the same bombing range from England as Dessau there was not so much boasting about air security se in the Junkers works.

Instead, the Heinkel works tried to decentralize their works in the widest extent. They now use more and more small factories scattered in little country: towns and villages of Mecklenburg, more remote from the coast of the Bal-

#### **FEELINGS** OF PEOPLE NOW- UNDER NAZI RULE

## Thousands Want To Go Home:

While the House of Common was debating the peace movemen amendment the Crech Foreign Minister in London, M. Masaryl gave an indication of the feeling of the people who have fallen under Naxi rule. "I want to go home," he said.

There are hundreds of thou sands of Europeans, includin Germans, who are waiting for the overthrow of what Major C. R Attlee called this abominable die tatorship' so that they can g home. They want the German troops and the German Gestape to go home too.

#### MORE APPARENT

News reaching London today shows that this wish on their par is becoming more and more apparent and that the Germans have great difficulties in maintaining even a semblance of order in the countries they have occupied.

Reports from Oslo state that the Norwegians are most optimistic of prospects of the Germans going home soon. The position of Major Quisling is considerably weakened and Nazi storm troops are being beaten up.

One report says that civil war between Norwegian Nazis and the vast democratic section of the nation may break out at any mo-

As a matter of fact it has broken out already among the children. One Nazi newspaper bitterly complains that Nazi-minded children are being subjected to molestation.

GESTAPO TERROR Similar conditions prevail in France and Holland and even in Poland and Czechoslovakia where the Gestapo terror continues

ceaselessly.

Even in Austria the spirit of insubordination to the present position is growing and cabaret artistes now dare to make jokes at the expense of. the regime.

At a recent football match between Austrian and German teams the Germans were consistently booed and hissed and the motor coach that was to take them home

#### BOMB IN CASTLE GROUNDS

A bomb fell in the grounds of Windsor Castle during a recent raid, states a London message. The Royal Lodge received some damage but there were no casualties. Bombs fell on the town of Windsor too but little damage was sustained.

LONDON, Dec. 6 (Reuter)-Photos of the destruction to Itaian warships at Taranto were dropped by R.A.F. aircraft when they raided Turin last night. The Italians are now able to see the indisputable havoc caused by British aircraft to their battleships,
